* ICARE = Immigration Contribution Agreement Reporting Environment

'Standard' IMDB tables dimensions

- Admission Year
- Tax Year
- Age and Sex
- Admission Category (family sponsored, economic, refugee)
- Profile (Knowledge of Official Languages, World Area of Birth, Citizenship/pre-admission experience)

can cross-tabulate these dimensions with each other and with either:

- Economic measures (incidence of social assistance, employment earnings, employment insurance, median income...)

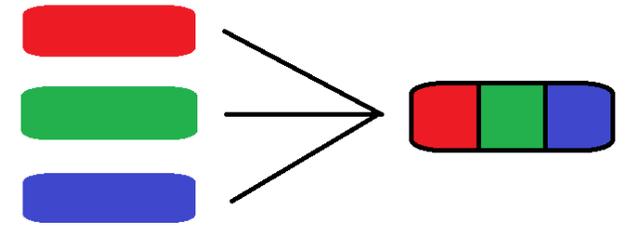

OR

- Mobility measures (in-migration, out-migration, retention rate...)

ICARE IMDB tables dimensions

- Admission Year
- Tax Year
- Age and Sex
- Admission Category and World Area of Birth
- *Settlement services received*

can cross-tabulate these dimensions with each other and with either:

- Economic measures (incidence of social assistance, employment earnings, employment insurance, median income...)

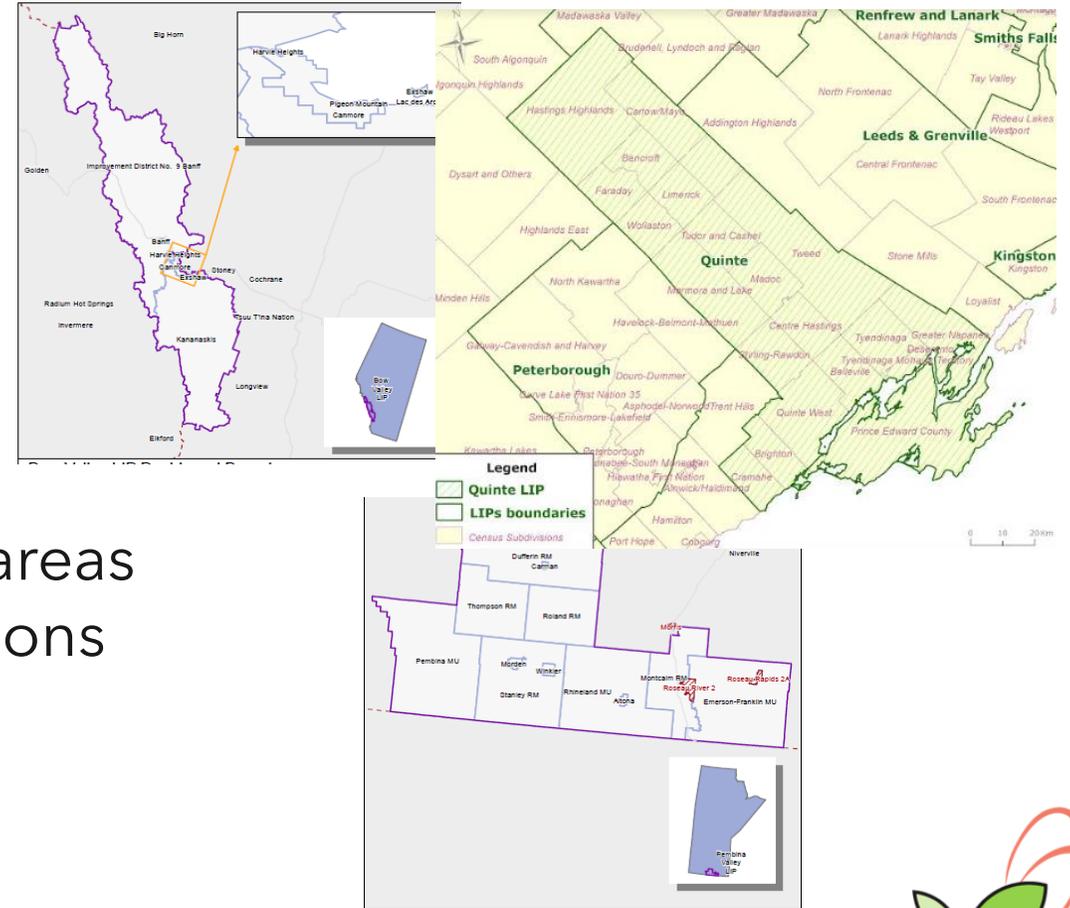

OR

- Mobility measures (in-migration, out-migration, retention rate...)

IMDB tables - Geography and Universe

- Geography
 - Census Divisions (CD)
 - Census Subdivisions (CSD)
 - LIP custom geographies
- LIP custom geographies
 - represent LIP service areas and study areas
 - e.g., aggregations of Census Subdivisions
- Universe
 - Immigrant taxfilers aged 15+
